

Assignment # 1

Shahzaib Akram

Estd. 1990

ID:

F2019065229

Submitted to:

Asad Arshad

Code Result:

```
A=[10,20,30,40]
```

```
x=40
```

```
i=0
```

```
j=i+1
```

```
while i < len(A):
```

```
    while j < len(A):
```

```
        if A[i]+A[j] == x:
```

```
            print(x)
```

```
            print("The pair with respective indexes are ")
```

```
            print(A[i],A[j])
```

```
            print(i,j)
```

```
        j=j+1
```

```
    i=i+1
```
